

AXIOM

HUMAN PERFORMANCE

Brand guidelines, held to one standard.

The complete identity system for AXIOM — Human Performance & Longevity. Everything a designer, writer or developer needs to produce on-brand work on day one: foundation, voice, logo, color, type, layout, motion, applications and tokens.

VERSION	ISSUED	SECTIONS	OWNER
1.0	Jul 2026	14	AXIOM Studio

One house, one standard.

The strategic ground everything else stands on — mission, values, audience and architecture. If a decision contradicts this page, the decision is wrong.

MISSION

Make verified, research-grade performance and longevity tools available to people who train for **decades, not weeks** — held to one standard.

VISION

A world where the gains people make this season are still with them a decade from now, because the tools behind them were **documented, not promised**.

POSITIONING

AXIOM is the considered, clinical-grade house for human performance and longevity in Indonesia. We bring peptide science, red-light therapy, recovery, wellness and apparel under a single standard of verification and documentation.
Short-term results, engineered to last.

BRAND PROMISE

Human performance, engineered for the long run.

02-1 Values

01 Verification over claims Nothing carries the mark until it is tested, documented and sourced right.	02 Restraint We state what we can prove and stop there. The discipline is the credibility.	03 The long run We build for the decade-over-decade game, not the next cycle.	04 Direct A real line to real people, before and after the order.
---	---	--	--

02-2 Five pillars

WRITTEN AS AXIOM · PILLAR NAME

01  Peptide Science Research-grade peptides across metabolic, repair, growth and neuro pathways — every lot HPLC/MS verified to ≥98%.	02  Therapy & Recovery Clinical red-light therapy — compression systems, mats and masks for circulation, skin and recovery.	03  Wellness Antioxidants, NAD+ and cellular-energy support — the daily inputs that hold your baseline while you push it.	04  Longevity Cellular-ageing, senescence and copper-peptide compounds for the decade-over-decade game.	05  Apparel Train in the identity — neutral, precise AXIOM performance wear and everyday carry.
--	--	--	--	--

02-3 Audience

PERSONA · THE RESEARCHER Lab buyer / scientist. Needs research-grade material with identity and purity they can trust and cite. Buys by lot, reads the Certificate of Analysis first. To them AXIOM is a documented, cold-chain supplier that speaks their language and never oversteps into usage claims.	PERSONA · THE DECADE ATHLETE Serious professional, 30–50. Trains seriously, thinks in decades, and is wary of hype and neon-supplement marketing. Wants recovery and longevity tools with real specifications behind them. To them AXIOM is the calm, clinical system that respects the long game.
PERSONA · THE CLINIC BUYER Recovery / wellness studio. Sources devices for a treatment space and needs clinical-grade hardware with verified wavelengths and irradiance, plus reliable restock and support. To them AXIOM is a dependable, spec-honest partner they can put in front of clients.	PERSONA · THE IDENTITY WEARER Apparel-first. Came for the aesthetic — neutral, precise, understated performance wear — and stays for what the mark stands for. To them AXIOM is an identity worn quietly, the same standard on the label as in the lab.

AXIOM is one master brand — a **branded house**, not a house of brands. Everything ships under the single AXIOM mark and the single AXIOM standard. The offering is organised into five pillars, written as the master brand, a middot, then the pillar in title case: **AXIOM · Peptide Science**, **AXIOM · Therapy & Recovery**, **AXIOM · Wellness**, **AXIOM · Longevity**, **AXIOM · Apparel**. Pillars never get their own logos, palettes or type.

Say it once, prove it always.

The approved language of the brand — pitches, tagline, value propositions and boilerplate. Copy from here rather than paraphrasing.

03-1 Elevator pitches

EXACT WORD COUNTS

15 WORDS AXIOM: verified peptides, red-light therapy and recovery under one standard, engineered for the long run.	30 WORDS AXIOM is a human-performance house from Jakarta: research-grade peptides, clinical red-light devices, recovery and wellness — every lot verified, every device documented, all held to one standard for the long run.
60 WORDS AXIOM is a human-performance and longevity house based in Jakarta, built for people who train for decades, not weeks. We bring research-grade peptides, clinical red-light therapy, recovery, wellness and apparel under one standard: HPLC/MS-verified purity, a Certificate of Analysis per lot, cold-chain logistics, and direct human support. Peptides are always Research Use Only. Short-term results, engineered for the long run.	

03-2 Tagline

PRIMARY Human performance, engineered for the long run.
APPROVED ALTERNATES One standard, across every product. Built for decades, not weeks. Verified, documented, sourced right.

03-3 Value propositions by pillar

PILLAR	VALUE PROPOSITION
AXIOM · Peptide Science	Research-grade peptides across metabolic, repair, growth and neuro pathways — every lot analysed by HPLC and mass spectrometry to a minimum of 98% purity, with a Certificate of Analysis per lot. Research Use Only, in-vitro.
AXIOM · Therapy & Recovery	Clinical red-light therapy specified to true 660 and 850 nm with verified irradiance — compression systems, mats and masks for circulation, skin and post-training recovery. Clinical-grade hardware, not novelty LEDs.
AXIOM · Wellness	Antioxidants, NAD+ and cellular-energy support — the daily inputs that hold your baseline while you push it, documented to the same standard as everything else we carry.
AXIOM · Longevity	Cellular-ageing, senescence and copper-peptide compounds for the decade-over-decade game — research-grade material, verified and documented, framed for the long run rather than the next cycle.
AXIOM · Apparel	Neutral, precise performance wear and everyday carry. The same standard on the label as in the lab — identity worn quietly.

03.4 Messaging matrix

PERSONA	PAIN	PROMISE	PROOF	CTA
The Researcher	Can't trust identity or purity of research material	Verified, documented material by lot	HPLC/MS ≥98%, CoA per lot, cold-chain	Request the CoA
The Decade Athlete	Hype and neon marketing, nothing built to last	A calm, clinical system for the long game	One standard across every product	Explore the range
The Clinic Buyer	Novelty LEDs, unreliable specs and restock	Clinical-grade hardware, spec-honest	True 660 + 850 nm, verified irradiance	Talk to the team
The Identity Wearer	Loud logos that stand for nothing	Quiet identity, real standard behind it	Same mark, lab to label	Wear the standard

03.5 Boilerplate

COPY VERBATIM

SHORT · ~40 WORDS AXIOM is a human-performance and longevity house based in Jakarta, Indonesia. We bring research-grade peptides, clinical red-light therapy, recovery, wellness and apparel under one standard — verified, documented, sourced right. Peptides are Research Use Only, in-vitro. Prices in IDR.
LONG · ~100 WORDS AXIOM is a human-performance and longevity house based in Jakarta, Indonesia, built for people who train for decades, not weeks. We bring research-grade peptides, clinical red-light therapy, recovery, wellness and apparel under a single standard of verification and documentation: every peptide lot analysed by HPLC and mass spectrometry to a minimum of 98% purity, a Certificate of Analysis per lot, clinical-wavelength devices, cold-chain logistics, and direct human support. Peptides are Research Use Only, intended exclusively for in-vitro laboratory research — never for human or animal consumption. Short-term results, engineered to last. Human performance, engineered for the long run.

03.6 The RUO messaging standard

NON-NEGOTIABLE Wherever peptides appear, copy states plainly that they are Research Use Only, intended exclusively for in-vitro laboratory and scientific research — never for human or veterinary consumption, diagnosis, or treatment. We describe scientific mechanism, pharmacokinetics and laboratory handling only. We never provide dosing, administration routes, frequencies, cycling, stacking, or medical guidance of any kind. The disclaimer is stated as fact, without apology, and is never buried.
--

Proof before promise, then stop talking.

The exacting lab director who is also a coach for the long game — precise, quietly confident, plain-spoken, never hyped.

04.1 Voice principles

01	02	03	04
Proof before promise Lead with the number, the method, the document. "Every lot analysed by HPLC and mass spectrometry to ≥98% purity."	Short declaratives State it plainly and stop. "One standard, across every product."	Quiet confidence Confident without hype; no superlatives, no fear-selling. "If it carries the AXIOM mark, it has earned it."	Honest restraint Say what we can document, and name the limits openly. "This panel intentionally contains no dosing or usage guidance."

04.2 Tone by context

CONTEXT	REGISTER	WHAT CHANGES	WHAT NEVER CHANGES	EXAMPLE
Marketing	Editorial, unhurried, confident	More narrative, the "long run" refrain	No superlatives, no medical claims	"Built for decades, not weeks."
Product & catalogue	Precise, specification-led	Terse, numeric, factual	Proof-led, RUO on peptides	"BPC-157 · 10 mg · Vial · HPLC/MS ≥98%."
Legal & compliance	Plain, definitive, complete	Fuller sentences, exact terms	Stated without apology, never buried	"Peptides are Research Use Only, in-vitro."
Support & WhatsApp	Warm, direct, human	Contractions, first person, helpful	No dosing or usage guidance	"Happy to help — here's your itemised quote."

04.3 Grammar & style

RULE	STANDARD
Currency	Indonesian Rupiah as Rp 1.600.000 — "Rp", a space, periods as thousands separators, no decimals.
Units	Space between value and unit: 10 mg, 660 nm, 2–8 °C. Use ≥ for minimums (≥ 98%).
Numerals	Tabular numerals in specs, prices and CoA tables. Spell out one through nine in prose; figures for data and measurements.
Capitalisation	"AXIOM" is always all caps. Pillars in title case (Peptide Science, Therapy & Recovery). Certificate of Analysis capitalised.
Headlines	Sentence case, not title case. Emphasis carried by a muted colour-shift , never by exclamation.
En-dash	Use – for ranges (2–4 working days, 660–850 nm) and as a spaced editorial break (—).
Punctuation	No exclamation marks, anywhere. No emojis in body copy.

04.4 Lexicon

WORDS WE USE

STANDARD	VERIFIED	DOCUMENTED	PROTOCOL	LOT	PURITY
CLINICAL	RESEARCH-GRADE	LONGEVITY	THE LONG RUN		
CERTIFICATE OF ANALYSIS	COLD-CHAIN				

WORDS WE AVOID

MIRACLE	GUARANTEED	CURE	ANTI-AGING	STACK	CYCLE
BOOST	BEST / #1				

Overclaims, medical claims, usage advice and superlatives — each one spends credibility the proof column earned.

01 · HERO HEADLINE Human performance, engineered for the long run.	02 · SECTION HEADLINE One standard, across every product.
03 · PRODUCT BLURB · BPC-157 10 MG VIAL A pentadecapeptide studied in vitro for tissue-repair and cytoprotective pathways. Supplied as a white lyophilate, HPLC/MS-verified to ≥ 98% purity with a Certificate of Analysis per lot. Research Use Only — in-vitro laboratory research; not for human or veterinary use.	04 · PRODUCT BLURB · RED LIGHT THERAPY MASK A face-contoured LED array at clinical 660 and 850 nm with verified irradiance, built for circulation, skin and post-training recovery. Clinical-grade hardware — a consumer product, documented to the same standard as everything we carry.
05 · CTA BUTTON SET EXPLORE THE RANGE REQUEST A QUOTE READ OUR STANDARDS	06 · ERROR MESSAGE That didn't send. Check your email or WhatsApp number and try again, or message us directly at +62 812 857 3396.
07 · OUT OF STOCK Currently out of stock. Leave your details and we'll confirm the next lot and its Certificate of Analysis as soon as it lands. 09 · WHATSAPP QUOTE REPLY Thanks for your list — here's your itemised quote with live stock and IDR pricing. Everything's verified and CoA-backed; reply here and we'll get it moving.	08 · ORDER CONFIRMATION EMAIL INTRO Your AXIOM order is confirmed and moving to dispatch. Peptides ship cold-chain with their Certificate of Analysis; devices are insured and tracked. 10 · SOCIAL CAPTION · COA POST Every lot, documented. HPLC and mass spectrometry, ≥ 98% purity, a Certificate of Analysis in the box. Verified, documented, sourced right.
11 · ACKNOWLEDGEMENT GATE (SHORT) AXIOM carries research peptides sold strictly for in-vitro laboratory use — not for human or veterinary consumption. Enter only if you are 18 or older and, for any peptide purchase, a qualified researcher or institutional buyer.	12 · DISCLAIMER PAIR · EN + ID EN — Peptides are sold strictly for in-vitro laboratory research and are not intended for human or animal consumption. ID — Peptida dijual khusus untuk penelitian laboratorium in-vitro dan tidak ditujukan untuk konsumsi manusia atau hewan.

AXIOM is bilingual by market. Indonesian copy is written to the same voice — baku but warm, proof-led, no exclamation marks — never translated word-for-word. These rules and renderings are canonical.

RULE	STANDARD
Stays in English	AXIOM (always full caps), Research Use Only, Certificate of Analysis, in-vitro, wellness, apparel — technical-legal and retail terms the audience knows. First use per page may carry a gloss: "Research Use Only (khusus keperluan riset)".
Translated	cold-chain → "rantai dingin" (standard in Indonesian pharma logistics); "Human performance" → "performa manusia"; "longevity" → "longevitas" in body copy.
The refrain	"The long run" renders as "jangka panjang" — tagline form: "direkayasa untuk jangka panjang". Never "lari panjang".
Register	The brand is "kami"; the customer is "Anda" (capitalised). No "kamu", no slang particles. Short declaratives; warm contractions allowed on WhatsApp only.
Unchanged	Numbers, units, currency in any language: Rp 1.600.000 · ≥ 98% · 660 nm · 2–8 °C. Sentence-case headlines; no exclamation marks; no superlatives; no dosing language.

TAGLINE · ID Performa manusia, direkayasa untuk jangka panjang.	ALTERNATES · ID Satu standar, di setiap produk. Dibangun untuk puluhan tahun, bukan hitungan minggu. Terverifikasi, terdokumentasi, bersumber dengan benar.
HERO LEAD · ID Ilmu peptida, terapi cahaya merah, pemulihan, dan longevitas — satu sistem yang dirancang matang untuk mereka yang berlatih dalam hitungan dekade, bukan minggu. Setiap protokol terverifikasi, setiap perangkat berkelas klinis.	BOILERPLATE SINGKAT · ID AXIOM adalah rumah performa manusia dan longevitas yang berbasis di Jakarta, Indonesia. Kami menghadirkan peptida riset, terapi cahaya merah klinis, pemulihan, wellness, dan apparel di bawah satu standar — terverifikasi, terdokumentasi, bersumber dengan benar. Peptida berstatus Research Use Only, in-vitro. Harga dalam Rupiah (IDR).
WHATSAPP QUOTE REPLY · ID Terima kasih atas daftarnya — berikut penawaran terperinci Anda dengan stok terkini dan harga dalam Rupiah. Semua produk terverifikasi dan didukung Certificate of Analysis; balas pesan ini dan kami segera memprosesnya.	ORDER CONFIRMATION · ID Pesanan AXIOM Anda telah terkonfirmasi dan sedang disiapkan untuk pengiriman. Peptida dikirim melalui rantai dingin beserta Certificate of Analysis-nya; perangkat diasuransikan dan dapat dilacak.

Four forces, one point of tension.

The icon is the wordmark's own X, cut to stand alone — four blades passing in tension, never touching, around an X-shaped channel of negative space. Sharp diagonal terminals, solid fills, bronze on the near - black canvas.

05.1 Lockups

A · SYMBOL ONLY

B · HORIZONTAL · SYMBOL + WORDMARK

C · STACKED

D · WORDMARK + SUBLINE

The wordmark is drawn artwork, never typed. Crossbar-less A, notched X, wide O ring, sharp M — use the supplied vector assets (assets/logo/axiom-wordmark-*.svg, axiom-logo-*.svg) exactly as delivered. The Jost wide-tracked "AXIOM" text style (§07.3) is reserved for UI labels and contexts where the artwork cannot be placed. Prefer lockup B in navigation, A at favicon/avatar sizes, D on documents and heroes.

05.2 Clear space & minimum sizes

Minimum clear space on all sides equals **1x the width of one arm**. Nothing enters this zone — no type, imagery, or edges.

LOCKUP	MIN DIGITAL	MIN PRINT
A · Symbol	16 px	5 mm
B · Horizontal	110 px wide	30 mm
C · Stacked	64 px wide	18 mm
D · Wordmark + subline	140 px wide	38 mm

05-3 Color versions

BRONZE ON CANVAS · PRIMARY	INK ON CANVAS · QUIET CONTEXTS
	
INK ON PAPER · PRINT	BRONZE-DEEP ON PAPER · ACCENTS ≥ 24 PX ONLY
	

Paper contexts. The wordmark artwork is supplied white-only — on paper, use the ink symbol plus typeset header (as the CoA does) until an ink cut of the artwork is issued. **Gradient use.** The sanctioned --accent-grad may fill the symbol only in hero/celebratory contexts, never at small sizes. No other gradients, ever.

05-4 Misuse

NEVER DO THESE

 X DON'T STRETCH OR SQUASH	 X DON'T RECOLOR OFF-PALETTE	 X DON'T ADD EFFECTS OR SHADOWS
 X DON'T ROTATE	 X DON'T PLACE ON BUSY IMAGERY WITHOUT A SCRIM	 X DON'T RESET THE WORDMARK IN OTHER TYPE

05-5 Co-branding & favicon

In partner lockups, AXIOM sits left, a 1 px hairline divider (--line-2) stands between marks at 1x clear space each side, and the partner mark is scaled to matching optical height. The AXIOM mark is never subordinated below 80% of the partner's height.

The favicon is the symbol-only lockup: the bronze notched X on #070605, exported as SVG. The same asset serves as social avatar. Never use the wordmark at avatar sizes.

Warm dark, bone ink, bronze earned sparingly.

A warm near-black canvas, bone-white ink and a bronze/copper accent. No purple, no cool blue, no pure black, no pure white — and bronze stays an accent, never a flood.

06.1 Core palette

CLICK ANY SWATCH TO COPY

Canvas --bg #070605	Ink --ink #F2EDE5	Muted --muted #9C9488	Muted deep --muted-2 #6A635A
Accent · bronze --accent #C88A4E	Accent bright --accent-bright #E7B173	Accent deep --accent-deep #7C4C24	Accent gradient --muted-grad 120° E7B173 → 9A5F2C

Hairlines. Dividers use ink at low alpha: --line rgba(242,237,229,.12) · --line-2 22 · --line-soft 06 · --accent-line rgba(200,138,78,.34). Selection is bronze with near-black text.

06.2 Ramps

50-900 · CLICK TO COPY

BRONZE

50	100	200	300	400	500	600	700	800	900
TOWARD BONE					500 = --ACCENT	TOWARD CANVAS			

WARM NEUTRAL

50	100	200	300	400	500	600	700	800	900
TOWARD BONE					500 = --MUTED	TOWARD CANVAS			

06.3 Semantic states & light palette

BRAND · BOOK EXTENSION · RATIFIED V1.0

Success / verified --ok #8FA37E	Warning --warn #C8A24E
Error --err #B0553B	Info --info #9C9488

Muted, desaturated, warm — states inform without shouting. Never neon green/red.

LIGHT / PRINT EQUIVALENT

Bone paper, near-black ink, bronze-deep accents.

Stationery and documents invert to --paper #F2EDE5 with --paper-ink #070605. On paper, use --accent-deep #7C4C24 for accents — core bronze fails contrast for small text on light ground.

PAIR	SAMPLE	RATIO	VERDICT	RULE
Ink on canvas	Aa 14 px	17.37 : 1	AA	Body and headlines — unrestricted.
Muted on canvas	Aa 14 px	6.75 : 1	AA	Secondary copy — unrestricted.
Bronze on canvas	Aa 14 px	6.94 : 1	AA	Text allowed at any size; prefer labels ≥ 10 px w500.
Bronze bright on canvas	Aa 14 px	10.54 : 1	AA	Highlight text — unrestricted.
Muted-deep on canvas	Aa 18 px	3.42 : 1	AA LARGE	Large or decorative only — ≥ 18 px, or uppercase micro-labels ≥ 9.5 px w500 as decorative meta.
Bronze deep on canvas	Aa	2.81 : 1	DECORATIVE	Decorative only — gradients, particles, fills. Never text.
Ink on paper	Aa 14 px	17.37 : 1	AA	Print body — unrestricted.
Bronze on paper	Aa 24 px	2.50 : 1	DECORATIVE	Decorative/large only — on paper switch text accents to - -accent-deep.
Bronze deep on paper	Aa 14 px	6.18 : 1	AA	Print accent text — passes AA.

06-5 Usage proportion

Canvas dominates. Ink carries content; bronze is earned emphasis at 10% of any surface or less. If a layout feels bronze-heavy, it is off-brand — remove accents until it calms.

Jost speaks, Inter documents.

Two families, strictly cast: Jost carries display at a light 300 weight; Inter carries body, UI and the wide-tracked micro-labels that sign every section.

A X I O M

HUMAN PERFORMANCE & LONGEVITY

EMPHASIS BY COLOR SHIFT, NEVER ITALICS

Performance you can measure.
Longevity you can keep.

TABULAR NUMERALS IN ALL DATA

≥ 98.0% Rp 1.600.000 660 + 850 nm 1419.5 Da

DO

- Headlines in Jost 300, sentence case, tight leading.
- Micro-labels uppercase, wide-tracked Inter 500 — the brand's most-used detail.
- Load only the cast weights: Jost 300/400/500, Inter 300–600.
- Tabular numerals for every price, spec and table.

DON'T

- Never set headlines bold or in Inter; never set body in Jost.
- Never use italics for emphasis — shift color to --muted instead.
- Never letter-space body copy; tracking belongs to labels and the wordmark.
- Never introduce a third family, including for code or data.

Airy by rule, divided by hairlines.

A 1280 px container, generous vertical rhythm, and thin rules as the core texture. This very page is set on the system it documents.

08.1 Container & grid

--maxw 1280px centered container · --pad 34px gutters · 12 logical columns, 16–40 px gaps. Section headers split 220px / 1fr; content splits collapse to one column under 760–860 px.

08.2 Spacing scale

Hairline gap	8 px
Inline gaps	16 px
Component padding	24–26 px
Gutter	34 px
Block spacing	64 px
Section rhythm	110 px

08.3 Section header anatomy

SELF-DEMONSTRATING

NN / Index

KICKER LABEL

Jost 300 headline, muted turn.

Inter 300 lead at 15 px, max-width 560 px, muted. The left column holds the bronze index number and wide-tracked kicker; the pattern collapses to one column under 760 px.

08.4 Hairlines & meta strips

Every major block is separated by a --line hairline. Vertical soft rules (--line-soft) divide stat cells; stronger --line-2 outlines inputs and buttons. Hairlines are texture, not decoration — do not omit them, and never thicken them.

FOCUS	PEPTIDE PURITY	PILLARS
Longevity	≥ 98%	05
The meta strip: uppercase key at 10 px · --muted-2, Jost value at 19 px · --ink.		

WIDTH	CHANGE
≤ 1100 px	TOC rail hides; nav gains the jump select.
≤ 1020 px	Pillar grid 5 → 2 columns.
≤ 860 px	Two-column content stacks; example grids stack.
≤ 760 px	Section header collapses to one column.
≤ 680 px	Scene scrim rotates vertical; padding tightens.
≤ 560 px	Pillars and steps go single column.

Lamplight on bronze, never neon.

Monoline Phosphor icons, the bronze particle field as the signature texture, and photography lit warm with deep shadow.

09.1 Iconography

PHOSPHOR SPEC · INLINE SVG HERE

									
FLASK	SUN	DROP-HALF	INFINITY	T-SHIRT	ATOM	SNOWFLAKE	TIMER	ARROW	

One family, one weight. Product surfaces use Phosphor regular (thin allowed at ≥ 32 px), colored --accent-bright or --ink; this document renders self-contained inline monoline equivalents (round caps, 1.6 stroke). Fill weight only inside solid buttons. Never mix icon sets; never use emoji as icons.

09.2 Signature texture · the particle field

The brand's hero texture is an **additive-blended bronze particle field** — points advected by curl-like noise, drifting upward as a "longevity current", colored **#7C4C24** → **#E7B173** by depth, gently reactive to the cursor. It runs behind hero content only, always behind a scrim.

Under **prefers-reduced-motion**, on coarse pointers, and in print/email, the field is replaced by the static fallback: layered bronze radial gradients on canvas with $\leq 4\%$ grain. The cover of this document uses exactly that pairing.

Fallback. radial-gradient 60% 50% at 72% 40% rgba(200,138,78,.22) + 40% 36% at 60% 70% rgba(124,76,36,.28) on --bg.

09.3 Photography

✓ **DO · CLINICAL PRODUCT**

Clean product on deep neutral ground, warm key light, honest detail. Specs visible, nothing staged.

✓ **DO · WARM RECOVERY SCENE**

Lived-in recovery moments — bronze/amber light, deep shadow, calm posture. The long game, not the max lift.

✗ **DON'T · NEON SUPPLEMENT**

No neon gradients, no shouting overlays, no cold clinical blue, no stocky gym clichés or hype claims.

Art direction. Subjects: macro lab detail (vials, lyophilate, CoA paper, HPLC traces), warm-lit recovery scenes, neutral apparel on warm seamless. Grade warm; shadows deep but readable; grain subtle ($\leq 4\%$ opacity). Any text over imagery sits on the sanctioned scrim gradient.

Engineered and calm — precision, not carnival.

Motion is slow, expo-out and unhurried. Nothing flashes, nothing bounces hard, and every animated element ships a static equivalent under reduced motion.

10-1 Easing & durations

TOKEN	VALUE	USE
Ease · signature	cubic-bezier(.16, 1, .3, 1)	Reveals, transforms, nav
Ease · draw	cubic-bezier(.65, 0, .35, 1)	Hairline draw-ins
Duration · micro	180–240 ms	Hovers, color shifts
Duration · standard	700 ms	Reveal rise + fade
Duration · draw	950 ms	Rules, progress
Stagger step	65 ms	Grid children

EXPO-OUT VS LINEAR

SIGNATURE · .16, 1, .3, 1

LINEAR · AVOID FOR MOVEMENT

10-2 Reveal & stagger

18 PX RISE · 700 MS · 65 MS STAGGER

01

Elements fade and rise on entry.

02

Children stagger at 65 ms.

03

Once in, they stay — no re-trigger.

10-3 Cursor & magnetic hover

FINE POINTERS ONLY

MAGNETIC BUTTON

MAGNETIC LINK →

Spec. Lagging ring (16%/frame) + fast dot (35%/frame), difference blend; ring widens to 56 px over interactive targets. Magnetic pull strength 0.32, released with the signature ease. Hidden on coarse pointers and under reduced motion.

MANDATE

Motion communicates **engineered calm**: one signature ease, low distances (≤ 18 px), no bounce, no flash. The scroll progress bar is bronze; the nav hides on scroll-down and returns on scroll-up. Every animated element — field, reveals, cursor, demos — has a static equivalent, and **prefers-reduced-motion: reduce** disables them all. This page honors that mandate itself.

The brand opener: the four blades travel in along their own diagonals and settle into tension. No bounce, no rotation, no scale — arrival, not arrival's celebration.

PROPERTY	VALUE
Blade travel	~15% of mark size, along each blade's diagonal
Blade duration	900 ms · cubic-bezier(.16, 1, .3, 1)
Stagger	80 ms · order TL → TR → BL → BR
Hold, then hand-off	≥ 400 ms hold; sting exits fully before the wordmark enters

Usage. Page load-in (this document's cover), video openers, social stings. Play once — never loop. Under reduced motion the mark appears static, complete.

The standard, applied.

The identity across its real surfaces — catalogue, documents, packaging, print, email, social and apparel. Every mockup here is built from the tokens in §13.

11.1 Product card & Certificate of Analysis

Catalogue card. Hairline frame, bronze category tag, Jost name, tabular price. Image zooms 4% on hover with the signature ease.

CoA document. The print palette in action — paper ground, ink rules, bronze-deep accents, tabular data, RUO footer. This is the brand's most important document; it ships with every peptide lot.

11.2 Packaging · vial label

Flat label · 3:1. Wordmark row over a bronze hairline, compound in Jost, micro spec grid, RUO micro-disclaimer. Tamper-evident seal covers the cap.

On the vial.

11.3 Stationery · business card

85.6 × 54 MM

Front dark: bronze symbol, wide-tracked wordmark. **Back paper:** Ink text, micro-labels, no bronze small text (contrast rule §06.4).

Email. Centered logo header, one kicker, one Jost headline, one action. Static field only — no animation in email. Disclaimer footer always present.

Templates. 1:1 and 9:16 on the static bronze field with a bottom scrim. Wordmark small at top-left, kicker + Jost headline low-left. Caption voice: proof-led (§04-5 example 10). Bio one-liner: "Research peptides (RUO, in-vitro), clinical red-light therapy, recovery & apparel — one standard. Jakarta."

Restraint rule. Garments in warm neutrals (ink, bone, deep bronze). One mark per garment face. No slogans, no all-over prints, no off-palette colorways.

Restraint is the credibility.

The compliance voice is part of the identity, not an appendix. Research Use Only framing is stated plainly, set legibly, and never buried.

12-1 The RUO / in-vitro standard

DEFINITIVE · NON-NEGOTIABLE

Peptides listed by AXIOM are **Research Use Only**, intended exclusively for in-vitro laboratory and scientific research. They are not drugs, food, cosmetics, or supplements, and are not intended for human or veterinary consumption, diagnosis, or treatment. AXIOM provides no dosing, administration, cycling, or medical guidance. By purchasing, the buyer affirms they are a qualified researcher or institution.

12-2 Disclaimer library

COPY VERBATIM PER SURFACE

A · SITE FOOTER · ~80 WORDS

Peptides — Research Use Only. Peptides listed on this site are intended exclusively for in-vitro laboratory research and development. They are not drugs, food, cosmetics, or supplements, and are not intended for human or animal consumption, diagnostic, or therapeutic use. By purchasing peptides, the buyer affirms they are a qualified researcher or institution and accepts full responsibility for safe, legal, and compliant handling. Therapy devices and apparel are consumer products. Prices are indicative, quoted in Indonesian Rupiah (IDR), and subject to change.

Research Use Only · Penggunaan laboratorium in-vitro · Bukan untuk konsumsi manusia

Before you enter

AXIOM offers therapy devices, wellness and apparel alongside research peptides. Those peptides are sold strictly for in-vitro laboratory and research use — not for human or veterinary consumption. By entering you confirm that you are 18 or older and that, for any peptide purchase, you are a qualified researcher or institutional buyer who accepts the research-use and compliance terms. No medical, dosing, or usage guidance is provided.

I CONFIRM — ENTER

LEAVE

ID — Sebelum Anda masuk, AXIOM menghadirkan perangkat terapi, produk wellness, dan apparel berdampingan dengan peptida riset. Peptida tersebut dijual khusus untuk penggunaan laboratorium dan riset in-vitro — bukan untuk konsumsi manusia maupun hewan. Dengan masuk, Anda menyatakan berusia 18 tahun ke atas dan, untuk setiap pembelian peptida, Anda adalah peneliti yang kompeten atau pembeli institusional yang menerima ketentuan Research Use Only serta kepatuhan yang berlaku. Tombol: **Saya Konfirmasi — Masuk • Keluar**

PACKAGING CLAIM RULES

— A label **may** state compound name, lot number, HPLC purity, molecular mass, and storage temperature.

— A label **must** carry the RUO / in-vitro micro disclaimer and a tamper-evident seal.

— A label **may not** state or imply human dose, route, frequency, cycle, or therapeutic benefit.

— A label **may not** use "cure", "treatment", "anti-aging", "guaranteed", or any medical or superlative claim.

— Only the sanctioned palette and approved AXIOM mark may appear — no third-party or medical-authority endorsement.

JURISDICTION CAUTION

Several compounds are controlled or regulated in many jurisdictions. Legality of import, possession, and handling varies by country and region. Buyers are solely responsible for confirming and complying with the laws that apply to them before ordering. AXIOM makes no representation of legality in any territory.

One source of truth, named in code.

Token names match the live site exactly, so guidelines and code never drift.
Copy the CSS block or the JSON — both describe the same system.

KEEPING THE STANDARD

Signed off, or it doesn't ship.

How work gets approved, how this document evolves, and where to go when in doubt.

14 · 1 Approval workflow

01 Draft Writer produces copy against these guidelines and the lexicon.	02 Brand review Brand owner checks voice, tone, and pillar accuracy.	03 Compliance sign-off Required on any peptide-adjacent copy; verifies RUO/in-vitro framing and zero dosing or medical language.	04 Publish Owner releases and logs the version; only signed-off copy ships.
---	--	--	---

14 · 2 Versioning & contact

This guide is versioned semantically (**v1.0**). Increment the minor version for additions and clarifications (v1.1), the major version for changes that alter voice, positioning, or the compliance standard (v2.0). The change and its approver are logged with each release.

Request logos, tokens, or copy templates — or route any question — to **hello@axiomperformance.example**. Sign-off matrix: brand owner approves identity and voice; compliance approves all peptide-adjacent surfaces; either may block release.

14 · 3 When in doubt

Lead with proof, not promise.
If it touches a peptide, it is Research Use Only — and never dosing.
When unsure, say less and send it to compliance.

ASSUMPTIONS & RATIFIED GAPS · V1.0

This edition extends the live identity where the site was silent, for owner ratification: **semantic state colors** (- -ok, - -warn, - -err, - -info — muted, warm, in -palette); the **light/print palette** (- -paper, - -paper-link, bronze-deep for print accents); **50-900 ramps** for bronze and warm neutral; the **photography art direction** in \$09; and formalised minimum sizes and clear space for the logo system. Personas, pitches and the disclaimer library were authored to the existing site voice. All other values are extracted verbatim from the live site.
