01 — THE COMPANY

A trusted link in the national nickel supply chain.

PT Tambang Nikel Sulawesi was established in 2022, focused on the domestic trade of nickel ore across Indonesia.

From the outset, the company has been committed to becoming a trusted partner in the national nickel supply chain — delivering reliable, high-integrity service from supplier through to smelter — and to actively supporting the government's national downstreaming (*hilirisasi*) programme.

LOCALLY MINED, NATIONALLY TRUSTED — SINCE 2022

03 — VISION

To be the **number one** nickel ore trader in Indonesia — commanding market share and standing as the nation's mainstay for nickel distribution.

MISSION — FOUR COMMITMENTS

01

Consistent quality

Provide high-quality nickel ore on a consistent basis to meet the needs of industry.

02

Reliable distribution

Build a broad, efficient and dependable distribution network that guarantees on-time delivery and partner satisfaction.

03

Strategic partnership

Forge partnerships with industry players — IUP holders and smelters — and Government, strengthening market position and supporting the growth of the downstream nickel industry.

04

Capable people

Develop professional, competent and high-integrity human resources to support the company's sustainable growth.

FIG. 03 — ORE STOCKPILE & LOAD-OUT OPERATIONS

04 — CORE VALUES

Four principles that hold at every step.

The values below govern how PT Tambang Nikel Sulawesi trades, partners and delivers — from first sourcing to final handover at the smelter.

01

Integrity

Honest, transparent dealing at every point of the chain.

02

Professionalism

Disciplined execution that earns and keeps partner trust.

03

Strategic Partnership

Long-term alliances across the nickel value chain.

04

Customer Focus

Reliability and satisfaction as the measure of success.

INTEGRITY · PROFESSIONALISM · PARTNERSHIP · CUSTOMER FOCUS

TNS

FIG. 04 — HAUL ROAD, ORE MOVEMENT TO LOAD-OUT

05 — WHY PARTNER WITH US

Five reasons partners choose TNS.

What a supplier, smelter or investor gets when they work with PT TNS — beyond the tonnes.

01

Reliable supply

Consistent, quality-controlled nickel ore delivered on schedule — the basis of every long-term relationship.

02

Integrated logistics

Barging and hauling handled end-to-end, moving ore from mine site to smelter without hand-off risk.

03

Established network

Working relationships with licensed IUP suppliers and major smelters across Sulawesi and Halmahera.

04

Compliance-first

Sourcing from licensed operations with documentation and integrity at every step of the chain.

05

Aligned with national priorities

By feeding domestic smelters, PT TNS actively supports Indonesia's downstreaming (*hilirisasi*) agenda — keeping more of the nickel value chain onshore.

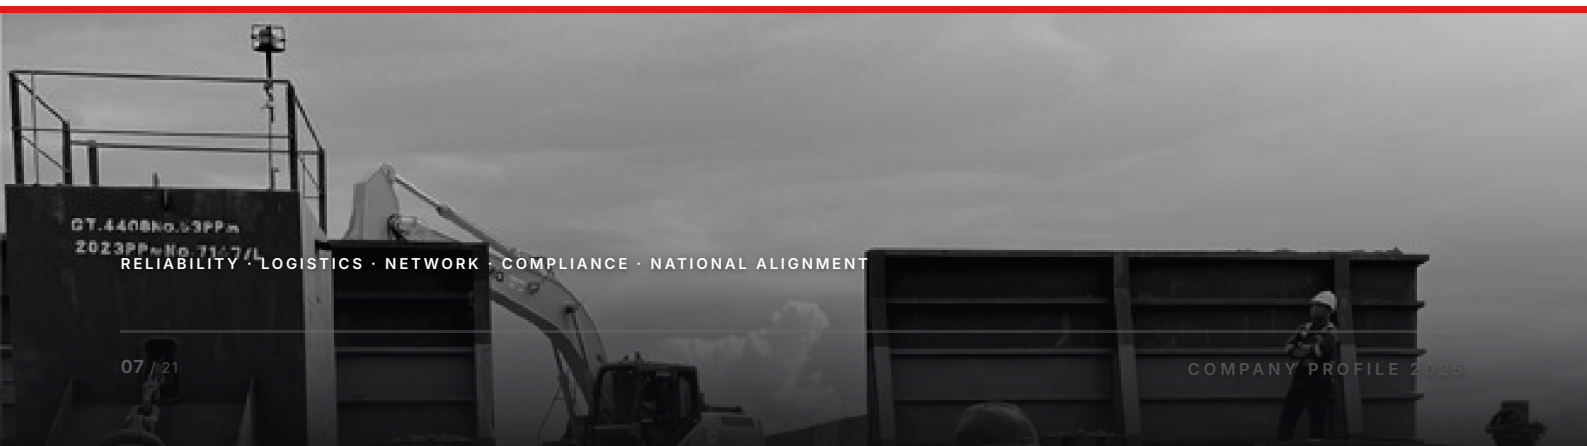

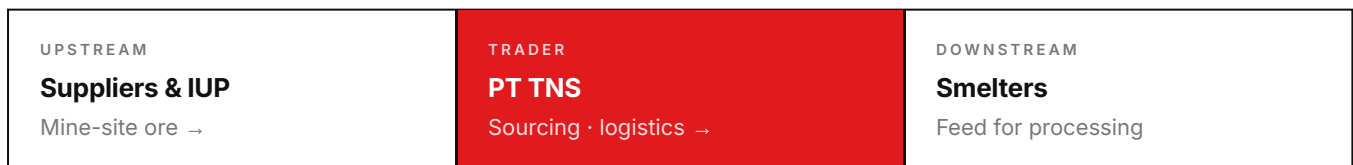

FIG. 05 — COASTAL LOAD-OUT, NICKEL CONCESSION

06 — POSITION IN THE CHAIN

PT Tambang Nikel Sulawesi is trusted to supply nickel ore to smelters across Indonesia.

07 — OUR OPERATING MODEL

Each cargo follows the same disciplined path — sourced, verified, moved, delivered and settled.

From mine site to smelter, in five steps.

01

Source

Secure nickel ore from licensed IUP suppliers across Sulawesi and Halmahera, matched to smelter demand and grade.

02

Verify

Confirm quantity and quality through independent draft survey and sampling — grade (Ni/Fe), moisture and tonnage — before shipment.

03

Move

Barging and hauling from jetty and stockpile to destination, with logistics coordinated end-to-end by PT TNS.

04

Deliver

Ore delivered to the smelter on the agreed commercial basis, with documentation and chain-of-custody maintained.

05

Settle

Final reconciliation of grade and tonnage, and settlement — closing the loop transparently with every partner.

FIG. — BARGING & HAULING, MINE SITE TO SMELTER

08 — NICKEL ORE SUPPLY BY REGION

TOTAL SOURCING CAPACITY

Sourced across Sulawesi & Halmahera.

940,000
METRIC TONNES (MT)

Sulawesi Tenggara 600,000
Konawe · Kolaka — Nickel Ore MT · 63.8%

Sulawesi Tengah 270,000
Morowali — Nickel Ore MT · 28.7%

Halmahera 70,000
Soagimalaha — Nickel Ore MT · 7.4%

SOURCING FOOTPRINT

Sourcing is concentrated in Indonesia's principal laterite nickel belts — South-East and Central Sulawesi — complemented by supply from Halmahera in North Maluku, placing PT TNS close to both mine sites and the country's major smelting hubs. See the map overleaf.

	Sulawesi Tenggara Konawe · Kolaka	63.8%
	Sulawesi Tengah Morowali	28.7%
	Halmahera Soagimalaha, North Maluku	7.4%

09 — COVERAGE & LOGISTICS

Close to the ore, close to the smelter.

Sourcing regions and destination smelters sit within the same nickel belt — short, barge-based routes from mine site to furnace.

FIG. 06 — STOCKPILE & LOAD-OUT OPERATIONS

11 — PRODUCT & SPECIFICATIONS

Laterite nickel ore, to spec.

Indicative ranges for the ore PT TNS trades. Final grade, moisture and terms are confirmed per cargo by independent survey.

ORE TYPE	Laterite nickel ore — saprolite & limonite
NICKEL (NI)	1.5 – 1.9% saprolite · 0.8 – 1.3% limonite
IRON (FE)	12 – 25% saprolite · 35 – 50% limonite
MOISTURE	30 – 35% as-shipped, wet basis
BASIS	WMT / DMT · FOB barge or CIF smelter jetty
SHIPMENT	Barge parcels, typically 7,500 – 8,000 MT per set
QUALITY CONTROL	Independent draft survey & sampling on load and discharge

Grades are quoted on a wet metric tonne basis and reconciled to dry tonne on assay. TNS works to each smelter's acceptance window for Ni, Fe, moisture and silica-to-magnesia ratio.

INDICATIVE — CONFIRMED PER CARGO

Ask us for a current spec sheet.

FIG. — NICKEL ORE STOCKPILE, READY FOR LOAD-OUT

12 — PRICING FRAMEWORK

Every price, to the national benchmark.

Every sale is anchored to **HPM** — the government's benchmark price under Kepmen ESDM No. 144/2026. Any invoice can be recomputed by either party from three published inputs:

- The certified assay (**COA**) — Ni, Fe, Co, Cr, moisture.
- Ministry reference prices (**HMA**) — published twice monthly.
- Bank Indonesia mid-rate — first working day of the B/L month.

An automated monitor recomputes the benchmark on each publication and briefs partners on price direction.

NICKEL PAYABILITY BY GRADE — CORRECTION FACTOR

1.0%		24%
1.4%		28%
1.6% base		30%
2.0%		34%

Each additional 0.1% of certified nickel grade adds one point of payability.

EXHIBIT — HPM BENCHMARK FORMULA
(PER WMT)

$$\begin{aligned} \text{HPM} = & [\%Ni \cdot CF \cdot HMA + \%Fe \cdot CF \cdot HMA \\ & + \%Co \cdot CF \cdot HMA + \%Cr \cdot CF \cdot HMA] \\ & \times (1 - MC) \end{aligned}$$

CF — published correction factor
HMA — reference price · MC — moisture

RECOMPUTABLE · TRANSPARENT ·
BOTH PARTIES

PRICE BUILD-UP BY PAYABLE ELEMENT — JUN
2026 (II), USD/WMT

Nickel 1.50%		52.71
Iron 49%		15.10
Cobalt 0.05%		5.45
Chromium 1.0%		0.41

HPM at 35% moisture **USD 73.67** / WMT

Computed from published reference prices and a representative specification.

FIG. — BARGE CARGO, INVOICED TO THE NATIONAL BENCHMARK

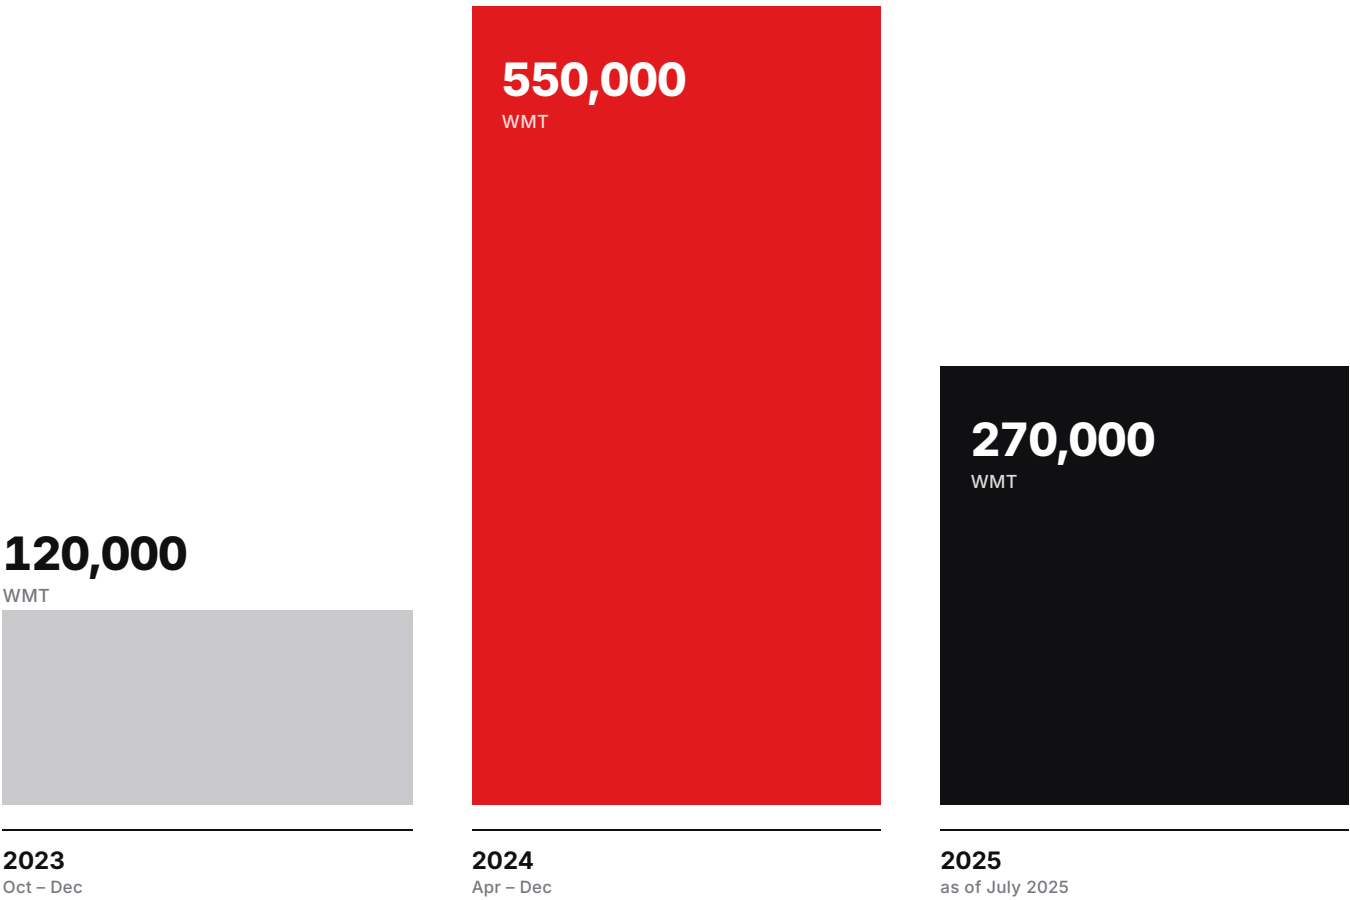

13 — ORE VOLUME SUPPLIED TO SMELTER

UNIT

WMT

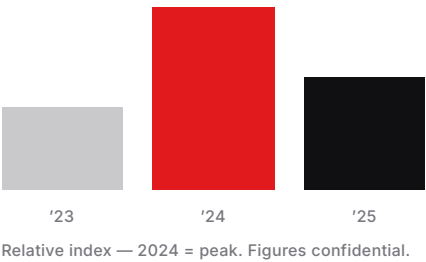

Wet metric tonnes, to smelter

Volume delivered, year on year.

From first deliveries in late 2023, volumes supplied to smelters scaled rapidly through 2024. The 2025 figure is a partial year — recorded as of July — and already stands at roughly half of the full prior year.

YEAR-ON-YEAR REVENUE

CUMULATIVE TO SMELTER — 940,000 WMT SINCE 2023

TNS

14 — TRACK RECORD

Founded in 2022, PT TNS moved from its first deliveries to hundreds of thousands of tonnes in under three years.

From first cargo to national scale.

2022

ESTABLISHED

Company founded in Jakarta; focus set on the domestic trade of nickel ore — supplier to smelter, across Indonesia.

2023

OCT – DEC · FIRST CARGOES

120,000 WMT

First deliveries to smelter; sourcing established across South-East and Central Sulawesi.

2024

APR – DEC · SCALE-UP

550,000 WMT

Volumes scale roughly 4.6x; the supplier and smelter network is broadened.

2025

AS OF JULY

270,000 WMT

Sourcing extended to Halmahera; on track against a strong prior year.

16 — RESPONSIBLE SOURCING & HILIRISASI

Sourced right, kept onshore.

How PT TNS trades responsibly — and how that supports Indonesia's national downstreaming agenda.

Licensed & compliant

Ore is sourced from licensed IUP operations, with documentation and adherence to national mining regulations at every step.

Supporting hilirisasi

By feeding domestic smelters, PT TNS helps keep processing and value-add onshore — the core of Indonesia's downstreaming policy.

Traceable supply

Chain-of-custody and independent survey give partners a transparent, verifiable record from mine site to furnace.

Community & environment

A commitment to responsible operations and to the regions — Sulawesi and Halmahera — where the ore is mined.

FIG. 07 — NICKEL CONCESSION, NATIONAL RESOURCE

17 — GUIDING PRINCIPLE

A satisfied customer is a good **business strategy** above all things.

PT Tambang Nikel Sulawesi is always guided by professionalism in its work — building lasting trust with every partner it serves.

18 — CONNECT WITH US
